### OVERVIEW

Hayden Consultants is an award-winning civil engineering consulting firm specializing in design and construction management services for major public infrastructure projects. We value innovative, pro-active thinkers interested in growing their careers with our growing company. The ideal candidate will know how to successfully analyze, design and review public infrastructure projects. Our major clients include: TxDOT, NTTA, DART, NTMWD, City of Dallas, Trinity Metro and numerous municipalities in Texas.

**Take your career to the next level.** This is an exceptional opportunity to play a critical role in a growing company, using your industry expertise and knowledge to propel your career to the next level.

### We Are Looking for Someone to:

- Design roadway, light rail and related public works projects
- Develop quality plans, specifications and estimates for multiple projects
- Supervise engineering design technicians and other technical staff
- Review and evaluate design and construction practices
- Prepare hydrologic and hydraulic reports
- Attend project meetings and work in a team environment or independently
- Facilitate meetings with internal staff and external clients

### You'll Be Best Suited for this Position if You Have the Following Skills/Attributes:

- Pro-active, problem solving orientation
- Drive, determination and responsibility for assuring accuracy and timeliness of deliverables
- Geopak and/or OpenRoads experience
- Previous experience in the transportation industry (TxDOT, DART, NTTA, municipalities)
- Experience with Arc GIS, Arc-Hydro and Arc-Geo RAS, Geopak Drainage, HECRAS, HY8, HECHMS and XPSWMM
- Experience preparing scope and fee estimates for new projects
- Experience writing project approaches for new project pursuits
